NOW IN INDIA

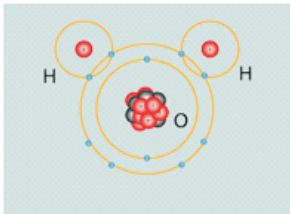

Hydrogen  
rich  
Water

LET'S GO TO THE NATURE

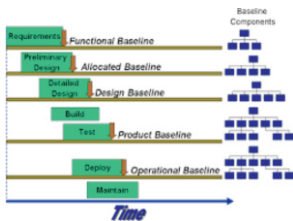

# HYQUA®

**ABOUT US** **Sethi Aqua Health Pvt Ltd** is operating from Bengaluru in India in technical collaboration with JAS, Japan. The joint collaboration has resulted in design and production of unique multi purpose water equipment. Both the partners have invested in resources, design, time and effort to build this company and provide a powerful everyday use product, **HYQUA WATER GENERATOR**.

**HYQUA** This unique product is the result of hard work, dedication and single minded focus to provide an excellent water providing equipment which finds use for every requirement at home and commercial needs. The **HYQUA** is unique for its multi role design. **HYQUA** provides the end user with water enriched with Hydrogen. The benefit for mankind from Hydrogen enriched water is immense. The list goes on and on....Some of the benefits are listed herein.

**CONFIGURATION HYQUA WATER GENERATOR** is a custom made product. The component of **HYQUA** is from Japan and is procured from the Japanese scientist who developed. The requirement and capacity is decided only after a detailed discussion with end user. During the discussion the need and capacity required is established. **HYQUA** is centralized installation hence, the building design and the piping requirements have to be considered.

**HYQUA INTERNAL PROCESS HYQUA WATER GENERATOR** processes water without disturbing its natural construction and composition. **HYQUA** does not remove the natural minerals in any stage of purification like other products in the market. Throughout the process the nature's gift is untouched; this is the unique consideration point and **HYQUA** scores against other similar products in the market, if any. The internal special filter plates are patented. **HYQUA** is made up of Hydrogen and Micro Bubble Technology.

**HYQUA MAINTENANCE** The core equipment needs very low maintenance. The associated installation is to be maintained as per the client's specification for the particular equipment. The core unit and all the supplies need just a normal up keeping and maintenance periodically and the same will be taken care by our company.

**HYQUA** is an immunity booster. The Hydrogen in HYQUA provides all the required support to enhance the Immunity and boosts the energy level. A stronger immune function helps fight a lot of health threats.

**HYQUA** water usage helps a person for smooth bowel movement and reduces constipation.

**HYQUA** ORP – Oxidation Reduction Potential, TDS & pH values are as per the required values and is safe drinking water –Govt. specified standards.

**HYQUA** water production process rearranges the water molecules in structured manner for higher benefit.

**HYQUA** water deactivates the harmful bacteria such as E-coli and Salmonella Staphylococcus and simultaneously activates the friendly bacterium.

**HYQUA** The molecules of raw water are unarrayed and messy in condition. Once treated by **HYQUA WATER GENERATOR**, the processed water will be in order and its cluster will be smaller hence increase ability to penetrate.

**HYQUA** water helps to keep body warmer after a bath with it.

**HYQUA** water is well known for its high Osmotic strength and extracting power. This will help making finer green tea with excellent taste.

**HYQUA** water helps the person to resist diseases by removing the bad bacteria – effect of which is enhanced appetite.

**HYQUA** water is beyond purity and delivers natural Minerals readily available for the body to absorb.

**HYQUA** water consumption helps a person to refresh and pump up the bodily function to full capacity.

**HYQUA** water adapts to immune responses by eliminating the toxic from the human body.

**HYQUA** water keeps vegetables fresh for a longer time.

**HYQUA** water converts the red rust into black and the pipe life is increased.

# HYQUA®

**HYQUA** water is perfect for cleaning the vegetables as the product removes the left over fertilizers and other unwanted chemicals. This will keep your food safe and healthy.

**HYQUA** water bath is recommended. This will keep the body warm. The untouched natural water content combination, with enhancement of hydrogen, is a perfect gift to human hair for excellent growth and reduction in hair fall.

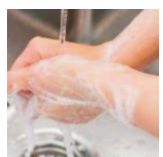

**HYQUA** water is also used for cleaning bathrooms and wash rooms. The anti-bacterial property makes the area clean and bacteria free. Everyone loves a clean and healthy area for better health.

**HYQUA** water makes intestinal environment healthy that causes less constipation and less smell at toilets.

**HYQUA** water is an excellent Endodontic and Periodontal rinsing agent after dental extraction. A good gargling and mouth wash agent.

**HYQUA** water is gentle for hands, less water wastage. Good for enhancing the glow of the skin.

**HYQUA** water sprinkles will keep flowers fresh for longer days.

**These benefits are just beginning; there are innumerable possibilities of advantages for humans**
